## A. G. OSOINACH DIES AT GULFPORT, AGED 68; FUNERAL HERE THIS A. M.

Was Native of Bay St. Louis, Brother of the Late John Ossoinach—Uncle of Henry W. Ossoinach and Mrs. P. E. Porter—City Editor Gulfport Herald.

Anthony Granville Ossoinach, at one time associate editor of The Sea Coast Echo, 1886-97, and for more than a quarter of a century city editor of the Gulfport Daily Herald, died at noon Wednesday in that city, after being taken to the King's Daughters Hospital of that city Monday night after a two weeks' illness at home. He had been ailing for a long while and his passing was not totally unexpected.

He was born in Bay St. Louis and resided here with his parents until 1897, when he severed his connection with The Sea Coast Echo, moved to New Orleans to establish The Literary Weekly, a high class publication. Later he left New Orleans and went to Pascagoula, Miss., where he established the Chronicle, with his cousin, the late Jules Tomasch, which is now the Pascagoula Chronicle-Star, owned by a company. He soon severed his connection with the Chronicle, which Mr. Tomasch published for a number of years thereafter alone.

He was associated with the Herald in Biloxi a short while before going to Gulfport to publish and edit for several years his own weekly newspaper, The Record, before joining the staff of the Herald, after he had discontinued his own paper.

He is survived by his wife, Mrs. Carrie Ossoinach; two sons, Granville and Harold Ossoinach of Gulfport; four daughters, Misses Mary, Eliza, Beth and Agnes Ossoinach, all of Miami, Fla., and Mrs. Carolyn Moore, Gulfport; two sisters, Misses Belle and Zelinda Ossoinach, New Orleans; three nephews, Clarence, Ossoinach, New Orleans; Gus Ossoinach, Memphis, and Henry Ossoinach, Bay St. Louis; two nieces Mrs. Lucille Porter, Bay St. Louis and Mrs. Clio Anderson, Santa Monica, Calif.; two grandchildren, Betty and Charles Moore, and a sister-in-law, Mrs. John Ossoinach, who is presently visiting her daughter Mrs. A. G. Anderson, in Santa Monica, California.

The body has been at Lang's Undertaking Parlor, Gulfport, Thursday and will be removed this Friday morning to Biloxi, to Bay St. Louis, burial in Cedar Rest cemetery, where Mr. Ossoinach's first wife, the former Miss Bessie McNulty, is buried. His present wife was the former Miss Carrie McNulty, a sister-in-law.

Religious ceremony will be at the Gulfport Catholic church, in Bay St. Louis the Very Rev. A. J. Gmelch will officiate at the grave in Cedar Rest.

The deceased was well known along the Mississippi Gulf Coast, and in Bay St. Louis by older residents. He was a man of unusual intellectual attainment, scholarly, widely read and well posted and his newspaper career was one to which he was devoted. In addition to serving The Herald, in major capacity, he was also the daily correspondent of New Orleans Times-Picayune, to which paper he daily wired a column or two of live news without missing a day.

Plans for "all out" civilian defense aid and the greatest membership roll call in history will be the objective of two Red Cross Regional conferences to be held in Mississippi this week of October. Conferences will be held in Laurel, at the Pinehurst Hotel on Thursday, October 30th, and in Greenwood at the Confederate Memorial Hall on Friday, October 31st.

Representatives of the 68th Red Cross Chapters in Mississippi are expected to attend one of the conferences, which will be the most important Red Cross meetings in Mississippi since world war days. Those who will represent the Hancock county chapter are Mr. and Mrs. Leo G. Ford and Mr. and Mrs. Horace L. Kergosier.

They will attend the conference at Laurel.

## MAGAZINE EDITION, DECEMBER

Information Regarding The Echo's Golden Anniversary Edition.

In response to many queries and letters of similar nature that come to The Echo office daily relative to the forthcoming Golden Anniversary Jubilee Number, a few words of information at this time will not be amiss, especially since we have refrained from over publicizing the special edition.

This publication in magazine form will be released some time in December, probably before the holidays, to consist of 50 pages and over, the minimum serving as one for each year, and will be enclosed in a handsome cover in two colors, pictorially decorated with a dozen or more scenes of Bay St. Louis.

One magazine will go to each paid up subscriber by mail, as usual. Other and all extra copies will sell at twenty-five cents per copy.

Orders for copies are being looked for now. While many copies will be printed these will sell like hot cakes.

Reservation for advertising space is now being taken. Space sold by the page, half page, quarter and in a minimum lot. Notwithstanding the tremendous cost of compiling and printing this edition, there is a slight advance in advertising rate. And it will be worth it.

From present outlook it appears the publication will carry one hundred or more engravings, even though this number is being restricted as much as possible because of the cost.

As this commemorative edition will be something to be kept for the next fifty years, no business firm will wish to be omitted from the advertising columns.

Further information on application.

## PREMIER SHOWING ON GULF COAST OF "THE LITTLE FOXES."

At Ortte's Theater Sunday And Monday—Bette Davis And Herber Marshall in Stellar Roles.

Lillian Hellman's great stage play brings out all the fire of the real Bette Davis as a woman whose lovely face masks a mad desire for power in whose soft white hands lay the will to crush men who were fools enough to love her.

Far above the ordinary attraction, beautifully performed and directed. The story takes place in a small Southern town in the early 1900's. It tells of the unsavory family of one sister and two brothers, their aversion for money and their unscrupulous tramping of all obstacles that may stand in their way. This brings about the pilfering of bonds and their discovery, the murder, by default, of the woman's husband through denying him the emergency medicine required to stem a heart attack and the wife's final reward when her only daughter, recognizing what has happened, walks out. Bette Davis, as Regina Giddens, is superb in a highly dramatic role, calling for callousness and grandeur. Teresa Wright, a newcomer as the daughter, is almost unbelievably good.

Bette Davis in her most dramatic role—You'll remember her in "The Little Foxes".

She sought power through money and got only bitter disappointment. "The Little Foxes" tells how in the of the year's dramatic "hundredth."

## OFFICIAL PROCLAMATION

Proclaiming All Saints Day a Holiday.

SINCE November 1st of each year is All Saints' Day, a time set aside especially when tribute is paid to the memory of the departed, and when the public visits the cemeteries and decorates graves with flowers and religious ceremonies is the order of the day, and it is fitting that one and all join the "allies of the dead" and pay respect by their visit in prayerful solicitation.

And since All Saints' Day is recognized over this entire section of our immediate Southland and in some places as a legal holiday, and in Bay St. Louis always with a thought and consideration as befitting such occasion.

Therefore, I, G. Y. Blaize, Mayor of the City of Bay St. Louis, do hereby, by this official proclamation, declaring SATURDAY, NOVEMBER 1, 1941, a holiday in the reverent sense of the word and further, officially requesting that all places of business be closed all day on that day, in order that the public may be enabled to pay respect to the departed.

Done at the City Hall, in the 24th day of October, A.D. 1941, and witnessed by my hand and seal.

## CONDITION FAVORABLE FOR MAYOR

G. Y. Blaize After Undergoing a Major Operation At New Orleans Last Week.

Undergoing an operation at Touro Infirmary, New Orleans, last week for the removal of a kidney, Mayor G. Y. Blaize is reported as improving rapidly and his attending physician-surgeon said during the week he could be removed to his home in Bay St. Louis within ten days. But his family have counseled him to remain fifteen days with the doctor, according to reports.

Mayor Blaize has been ailing for several years with a kidney ailment, until recently the ailment began so pronounced that he had to take to the bed with a recurring fever daily, treatment for which failed to produce the desired results.

Mayor Blaize, accompanied by Mrs. Blaize, who has been at his bedside ever since, underwent the ordeal with remarkable courage and fortitude, which has contributed all the more to his speedy recovery. His son, Bernard Blaize, and wife, have also been in New Orleans frequently and friends from Bay St. Louis since Wednesday of this week are allowed to visit him, many traveling the journey to visit and to show their solicitation. The physician said the operation was a splendid success and that Mayor Blaize would be vastly benefited, in fact, a new man, and would be back to his old time "pep" and energy.

## U. S. SHOULD WATCH HITLER.

THE word comes from Washington, that the President is convinced that Hitler will not declare war upon the United States, regardless of what we do in regards to the war in Europe. This conclusion, we think, is sound for the present. The future may produce a different situation, however, and the reasoning will not be valid.

Hitler is apt to treat the United States exactly like he treated Russia. As long as it suits his purpose he will "play low" and say nothing. At the opportune time, if it comes, he will launch a sudden, unexpected attack.

It may be safely assumed that the United States has already earned the undying hatred of the Nazi Fuehrer. Back of the desperate gamble in attacking Soviet Russia may be the sceptre of American supplies, tipping the scales of armament in favor of Great Britain.

If Hitler succeeds in whipping Russia, to the point that the Red army ceases to be an effective fighting force, we suspect that the next German offensive will be against the British Isles and that, if this succeeds, the second will be against the United States.

It will be just as well for the people of the United States to prepare their defenses against the worst that can happen. This will be a combination of Germany, Italy and Japan, with the possible assistance of Franco in Spain. The aim will be the conquest of the Western Hemisphere and the division of the rich territorial and monetary spoils that these continents offer.

## HE KNOWS THE JAPANESE.

THE commander of the Pacific Fleet station in the Far East, has a ticklish job. He has a chance, however, to understand what Japan is doing in that part of the world.

Admiral Henry E. Yarnell, until some months ago, was commander of the U. S. Fleet in the Far East. He was in actual contact with the Japanese time and time again.

The admiral says that the real reason for Japan's aggression is not a need for more room for her people and for additional markets but "the belief of the Japanese military mind in the glory of conquest and superiority of the Japanese people."

## PAT HARRISON AIRPORT

THE new Municipal Airport to be built in Gulfport in co-operation with the Civil Aeronautics Authority will be named the Pat Harrison Airport in honor of the late Senator Pat Harrison, who made Gulfport his home for 30 years and whose body now sleeps in that city. The airport is supposed to cost not less than \$440,000. The people of Mississippi will heartily approve the honor thus paid to the memory of Senator Harrison by the Gulfport authorities.

## FORGET THE WAR.

ARE you tired of war news? If you are, why not go to sleep and forget all about the struggle now going on in Europe? If Hitler wins, he will wake you up and, after you find what has happened, you won't care much to be awake.

Since the Germans have killed so many Russians, according to Berlin reports, we wonder who the Nazis are fighting in Russia.

A Mississippi exchange heads this one "Per-nicious Pun." Said the firefly as he landed on Garbo's shoulder, "I think I glow now."

When the time comes to pay income taxes, next year, many Americans will discover that they are not isolated from Europe.

Hard work does not kill people, regardless of what you hear; if you want to live long, get a philosophy that enables you to avoid worry.

Newspaper advertising is increasing, according to reports, and the trend is visible in Bay St. Louis where business men are using The Echo more than ever to reach potential customers.

The 12 radio stations in Mississippi have formed an association. Now if they will do something to get the quiz programs off the air it may be worth while.

Gasoline rationing has been ended in the East. Secretary Ickes said that Britain was returning 40 tankers borrowed from the U. S. which would be put back in the business of hauling petroleum products to Eastern ports.

J. L. McCorkle, of Hazlehurst, president of the Mississippi Press Association, is scheduled to address a conference of County Agents at the Heidelberg Hotel on October 31st at 10:45 A. M. All editors in the state are invited to attend the session and a luncheon which will follow.

Mississippi will eat her Thanksgiving turkey on November 26 this year. The state legislature followed R.D.R.'s edict in setting the date. Next year, if we still have anything to be thankful for, we will do it on the last Thursday in November.

This is the last day to get your automobile license before the 25th, which means that those for whom the license is a mere formality should get it today. Those who have been driving without a license should get it today, too.

## HITLER WOULD TAKE THE PLACE OF THE DIVINE ONE

THE subject of religion was not overlooked in President Roosevelt's Naval Day address Monday night over radio. This part of his address is another one that comes home to every man and woman, and it should not be read too negligently, but the intelligence and its significance absorbed deep into the mind.

President Roosevelt knows whereof he speaks and his words are a warning to be alert, to not take the present menace too lightly and to heed well the red danger light.

In his address the president at a later period turned to religion. He said:

"Your government has in its possession another document made in Germany by Hitler's government. It is a detailed plan, which, for obvious reasons, the Nazis did not and do not wish to publicize just yet, but which they are ready to impose a little later on a dominated world—if Hitler wins."

"It is a plan to abolish all existing religions—Catholic, Protestant, Mohammedan, Hindu, Buddhist and Jewish alike. The property of all churches will be seized by the Reich and its puppets. The cross and all other symbols of religion are to be forbidden. The clergy are to be forever liquidated—silenced under penalty of the concentration camp."

"In place of the churches of our civilization there is to be set up an international Nazi church—a church which will be served by the orators sent out by the Nazi government. In the place of the Bible, the words of Mein Kampf will be imposed and enforced as holy writ. And in place of the cross of Christ will be put two symbols—the swastika and the naked sword."

He spoke of increasing arms production here, and added, "It is the nation's will that these vital arms and supplies of all kinds shall neither be locked in American harbors or sent to the bottom of the sea."

That denunciation of ours not to take it lying down has been expressed in orders to the American Navy to shoot on sight. Those orders stand.

## NERO FIDDLES.

PRESIDENT Roosevelt Sunday night asked John L. Lewis to reconsider his decision and keep captive coal mines open. The CIO leader had ordered a strike for some 53,000 members of the so-called captive coal mines that feed the nation's vital steel and iron mills. The order was expected to result in a showdown between the head of the U. S. government and the head of the labor organization. Since then a second and third appeal laws been registered by the President to Lewis and the appeal has been flatly turned down. In other words Rome burns while Nero fiddles. This man Lewis has set himself up as a dictator No. 1. He has no regard for authority and is an enemy to the government which represents the people; an enemy to labor, again representing the masses in this time of national defense.

Congress is bestirring itself in the interest of passing a bill making such arbitrary action and one in defiance of the voiced by millions of right-thinking people that such bill will be passed.

The policy of the government toward men like Bridges, Lewis et al. has been too vacillating. It appears we are reaping the inevitable harvest. The first seed was planted when President Roosevelt tolerated the sit-down strikes in Detroit, neither lifting his voice nor a finger in opposition thereto.

## HITLER'S SECRET MAP

PRESIDENT Roosevelt's address to the world Monday night, by radio, on the occasion of Navy Day, contained many startling disclosures and the distinguished speaker did not hesitate to speak his mind, revealing things unknown to the nation, of lurking danger and of the program of Hitler's for the western hemisphere. It was one of his best and strongest addresses yet delivered since the present world war crisis.

He said he had in his possession a secret map in Germany by Hitler's government, and in his own words here is the story, without comment, which is not necessary.

"For example, I have in my possession a secret map made in Germany by Hitler's government, by the planners of the new world order. It is a map of South America and a part of Central America, as Hitler proposes to reorganize it."

"Today in this area there are fourteen separate countries. But the geographical experts in Berlin, however, have ruthlessly obliterated all existing boundary lines. They have divided South America into five vassal states, bringing the whole continent under their domination."

"And they have also arranged it that the territory of one of these new puppet states includes the Republic of Panama and our great life line—the Panama canal."

"This is his plan. It will never go into effect."

"And that map, my friends, makes clear the Nazi design not only against South America but against the United States itself."

## SAYS KEARNY ATTACK WAS "FRAMED."

THE German radio refers to the "made-up" story about a German U-boat torpedoing the American ship Kearny. The broadcast, heard in this country, accuses Secretary Knox of plotting with the British Minister to stage an incident and with declaring that if a German torpedo did not do the trick, then an American mine would.

This is the kind of propaganda that Berlin expects Americans to believe. By constant repetition of such fascious Berlin hopes to add fuel to the campaign that is being waged in this country by the isolationists and pro-Nazi groups. When such stories are spread in a country there is a danger of making an individual that is able enough to believe it will be foolish enough to believe any detail.

It is a good thing that the newspapers of this country are not so easily fooled by such propaganda. The only way to keep the public from being misled is to keep the truth before them.

## MADE IN MISSISSIPPI

THE State of Mississippi has a record of 100 percent of its goods made in the state.

It is a record that is well known to all who are interested in the state's economy. The fact is that Mississippi has a long and proud history of manufacturing and commerce.

## Hollywood Echoes.

Connie Bennett has a private beauty salon in her home and when women friends visit her, Connie invites them to "have the works" which includes free manicures, finger waves, facials and what not.

Speaking of the Herbert accentricity reminds us that numbers of other leading actors and actresses in Hollywood have just as goofy gadgets in their homes. Joan Blondell has a meal selector, operating on the order of a slot machine, which offers some 500 dietetically correct menus from which she may select the one she wants.

Six camera men were assigned by Sam Goldwyn to film the recent World Series games, which he plans to use as background shots in the forthcoming production of Lou Gehrig.

Harold Lloyd is planning to remake a number of his own early vehicles with Kay Kyser appearing in his former role. The first such picture will be "My Favorite Spot," to begin shooting on Nov. 1.

Daniel DeFoe's "Robinson Crusoe" will be produced by Warners, with Dennis Morgan in the title role.

Because she doesn't like the role Ida Lupino refused to play the lead in "The Juke Girl," and Warners promptly suspended her from salary and substituted Ann Sheridan.

As soon as he completes his present assignment in "Wild Bill Hickok," Bruce Cabot will leave Hollywood for England where he will appear in "Eagle Squadron," which Walter Wanger is filming in England. Cabot is the first professional actor engaged for the picture, the other roles thus far having been played by Americans in the U. S. A. F.

Apparently a "back to the movies" trend began in late July and, according to producers and theater owners all over the country, the slump in movie theater attendance is over. It is estimated that more than 45,000,000 movie tickets are being sold every week now and that the weekly sales will shoot past the hundred-million mark by November 1st.

What caused this revival of moviegoing interest is not definitely known, but it is believed that the recent success of the picture "The Great Dictator" has a great deal to do with it.

is due to the trend toward better pictures. Probably, the best explanation for the revived interest is the need of the people for relaxation because of the stress and strain of present living.

Jeanette MacDonald has finally abandoned her insistence on playing screen characters whose names contain the letter "v". In her next film "I Married an Angel," in which she plays the lead, the heroine's name is Anna Zander. However, some of the actresses' screen names were Rose Marie in the picture of the same time—Marietta in "Naughty Marietta," Mary in "San Francisco," Sarah Millick in "Bittersweet," Gwen Marlowe in "Sweethearts," and Mooneyan in her latest picture, "Smilin' Through."

Linda Darnell, now past 18, is on her own, so to speak, but that doesn't mean that she's going to live a care-free, empty life. Not a bit of it. She plans to continue the study of art, for which she has a natural talent, and has also enrolled at U. C. L. A. for a course in languages and psychology. All this beside an active career as a rising young leading lady.

Brenda Marshall received a birthday present from her husband, Bill Holden, a 150-piece set of English Spode china.

When Priscilla Lane refused the feminine lead opposite John Garfield in "Remember Tomorrow," Warners suspended her for two months. However, her suspension has ended with her assignment to the ingenue role in "Arsenic and Old Lace" opposite Cary Grant. She will play the role of Elaine Harper, portrayed on Broadway by Helen Brooks.

A message from Washington says that Mrs. Hale Boggs, wife of the representative of the Second Louisiana District, is to be sponsor for the new steamship Jean Lykes, which will be launched at the yards of the Federal Shipbuilding Company at Kearney, N. J., at 11 a. m., November 3.

More than \$300,000 of the \$1,090,254.14 in taxes paid to the State by the beer industry last year went to public education—enough money to give a year's schooling to 10,000 Mississippi boys and girls.

You can help protect this income to the State by buying your beer from WHOLESOME, law-abiding retail beer outlets. This committee is dedicated to eliminating those retailers who endanger the whole industry by persistently selling beer outside the law.

## Waveland Activities

Personal and General News Notes of the Week From Sister City and Vicinity.

**T**HERE are a few indications that the fall of the year has come. Occasional trees in the woods have begun to be colorful, they are mostly sweet gums and ironwoods, widely separated but nevertheless showing color. Goldenrods, deer tongue, tick weed, wild ageratum, and astors are blooming along the roads where summer flowers used to be. And in the gardens tender foliage plants are being taken up and placed in pots ready for the possible temperature changes that may come.

### BAY-WAVELAND GARDEN CLUB

Miss Mary Perkins and her students are justly proud and appreciative for the bulbs given them by the Garden Club to adorn their class room.

### HALLOWEEN

Whether your Halloween party goes over with a bang or a bust will depend about 50 per cent on the atmosphere, provided for the event. The successful ghost-night hostesses rely heavily on the eerie, spooky seasonal atmosphere. The ancient, Druids celebrated Halloween as New Year's Eve, for November 1st began their year. The people believed that death might come for them on New Year's, so they had a grand time the night before. This is the origin of the tricks and spooky ideas we use on this day.

When the romans conquered Britain they changed the name to "Halloween Evening," which soon became Halloween. But the idea of fun and spooks has remained.

The children of Waveland school will celebrate on Halloween afternoon in their rooms. The decorations in Miss Turcotte's and Miss Carrio's rooms are pretty and colorful.

### MOTHERS CLUB

Meeting to be held in school auditorium on Wednesday, November 5, at 2:45 P. M. Plans for the yearly Xmas tree will be discussed and the usual crowd will be expected. The Xmas tree has always been a huge success, gladdening the hearts of many little ones.

## FLYNN, MacMURRAY, STAR IN FLIGHT FILM AT A. & G. THEATER

'Dive Bomber' Opening Sunday is Thrilling Saga of The Air—Filmed in Technicolor.

Warner Bros. "Dive Bomber," this Sunday and Monday at the A. & G. Theater, is for many reasons, Hollywood's "biggest" new production; "big" not only in importance of star names, budget, schedule and story, but vast in the technical problems it presented.

First of all, it deals with a completely new subject, the work of specialists of which there are a mere handful in the country today. These are the flight surgeons, medical scientists out to solve the mysteries of the stratosphere.

For planes and plane motors have been advanced so far by man that man himself is not physically or mentally equipped to keep up with them. Therefore the dread "black out" or dive bomber pilots, altitude sickness, pilot fatigue and other bewildering ailments, all serious, that have been revealed only since enough to take man 20,000, 40,000 and 50,000 feet into the air.

In "Dive Bomber," filmed in new fast-action Technicolor, Errol Flynn and Fred MacMurray are starred, supported by Regis Toomey, Ralph Bellamy, Allen Jenkins, and others, with beautiful young Alexis Smith as the leading woman. Michael Curtiz directed from a story by Frank Wead and a screen play by Wead and Robert Buckner.

Much of the exterior work on the picture was done at the U. S. Naval Air Base, San Diego, where every facility, every plane, was made available to the Warner Bros. Company. Other work there was done aboard the U. S. S. Enterprise, an aircraft carrier.

Most difficult production problems was to get actual scientific equipment, all practical, such as that in use at the Wright Field Flight Surgeon Laboratories, Dayton, Ohio, where most such work in the country is done today. Some of this equipment was obtained on loan from Wright Field officials.

More than two months was required for camera work alone, so many were the flight and other technical problems involved.

Euclid R. Jobe has returned to his official duties in Jackson after attending a meeting of the National Association of Secondary School Principals held in Washington, D. C. Mr. Jobe is state supervisor of high schools in Mississippi.

### Work Stoppage in Defense Industries Continue

The most annoying thing in connection with the defense program is the stoppage of work in defense industries because of labor disputes of one kind or another. All the Executive agencies, which are charged under the Constitution with the duty of administering the laws of the land, say that they have sufficient power to deal with these labor problems and that no additional law is required of Congress, and still these defense delays continue.

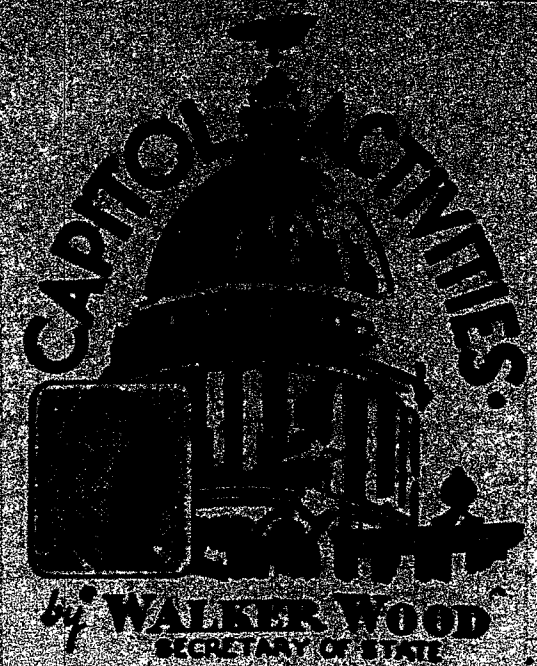

### Efforts To Prevent Speculative Farm Boom

The Farm Credit Administration is instituting a program to prevent a speculative boom in farm real estate such as brought bankruptcy to many farmers after the World War. The program contemplates efforts to (1) make normal values the primary factor in appraisals for loans; (2) impress upon present borrowers the wisdom of using present higher incomes to pay off existing debts; (3) encouraging farmers to build reserves to tide them over periods when incomes are not so high; (4) avoid fostering speculative increases in production; and (5) encourage the sound use of credit to foster a better balanced agriculture and a higher standard of living on the farm.

### Small Business

Complaints are general that small business is not obtaining a fair share of contracts involving national defense and that the largest concerns in the country are obtaining too large a share of said contracts and are not giving the smaller concerns a fair opportunity to share in them by sub-contracting.

There is a shortage of certain valuable materials, such as copper, aluminum, steel, rubber and many other items. This shortage hinders the operation of industries and the Government in order that these items may be supplied.

### THE Montgomery County Fair

Winona last week attracted many visitors from over the state and especially on Thursday, October 20 when a number of State officials were guests at the Fair. The number spending the day in the Montgomery metropolis were: Walker Wood, Secretary of State; Greek L. Rice, Attorney General; John Sharp Williams, 3rd, Insurance Commissioner; St. Corley, Commissioner of Agriculture; Dr. Felix J. Underwood, director, State Board of Health; J. S. Vandiver, State Superintendent of Education; Guy McCullen, Land Commissioner; H. M. Morse, Oil and Gas Supervisor. Others attending were Leon Trotter, Assistant Secretary of State; Mr. McDaniel, from Department of Education; Mr. Gatlin from the Board of Health; Mr. E. E. Wright, Capitol Watchman, and former Sheriff of Montgomery County. The State officials, and others from Jackson, were guests of the Rotary Club and the local Chamber of Commerce, entertaining jointly at Hotel Simmons. Dr. Underwood was the guest speaker.

On Tuesday of last week Governor John W. Bricker, of Ohio, was the special guest of Camp Shelby at Hattiesburg, where many thousands of soldiers from Ohio are in training, and on that day were inspected and reviewed by the Ohio executive who expressed himself as being highly pleased with the fine condition of the soldiers at Camp Shelby. Governor Paul B. Johnson of Mississippi was present on that occasion to greet the visiting governor and others from the North who had come to see the soldiers. Secretary of State, Walker Wood, of Jackson, John Sharp Williams, Insurance Commissioner, and C. K. Rudephus, secretary, State Test Bank Purchasing Board, were also present on that occasion, as were many other Mississippians.

Fifty representatives of livestock interests in the Delta met at Stoneville last week and organized the Delta Fair Association with the announced purpose of serving the livestock industry of that section. R. M. Dakin, of Cleveland, was named chairman of the administrative committee. The new organization will boost the livestock interests in the Delta and good results may be expected to follow.

Dr. H. M. King, of Jackson, one of the most popular and beloved Baptist preachers in the state, died at his home on Wednesday of last week. Dr. King was 70 years of age, a native of Ireland who came to the United States in early life on a business mission, but soon went into the ministry, and after preparing himself by special study took up pastoral work. He had been a pastor in Jackson for 28 years and two or three years ago resigned from Calvary Baptist Church on account of ill health. The congregation of that church then made him pastor emeritus. He ranked among the able Baptist preachers of the South. The funeral was held in Calvary Baptist church on Thursday afternoon and was very largely attended.

Jimmie McClain, nationally known as "Dr. Q. Q. the Mental Banker" is another Mississippi boy who has made good in a big way. He formerly worked as messenger boy for Jimmie-Jungle store in Jackson and attended school at Central High. He paid the capital city a visit last week and was warmly welcomed by old friends.

tion in the Rules Committee, of which I am a member, to set up a five man committee to investigate this problem and report to Congress, and it is thought that the Rules Committee will act favorably on the resolution.

## CENTRAL SCHOOL PLANS FOR NEW YEAR LISTING OBJECTIVES

Plans include Sponsoring of Free Lunches, Placing of New Seats on Campus.

The Bay High P. T. A. at its last meeting, on October 14, set forth an outline of their plans for the coming year. Under the direction of Mrs. Mrs. F. J. Nelson, president, its two major objectives will be that of sponsoring free lunches for underprivileged children and the placing of twelve concrete benches on the school campus.

Programs for each month of the entire year have been planned and worked out. The programs will include instructions on "Respect to Our Country's Flag," on November 11, Armistice Day, by Mrs. J. B. Goldman, Girl Scout leader. In December a musical program will be given by Mrs. Carl Smith's chorus and Professor Morgan's band. Then in January the P. T. A. hopes to have Mrs. Warwick Aiken to speak on "Religion as a Factor." The February meeting will be the Founders' Day Celebration and Birthday Gift. Mrs. W. S. Speer will have charge of this program. Honor guests at the meeting will be past presidents of the local P. T. A. It is hoped that all of them will be able to be present on this occasion. Mrs. Goldman, the historian, will give a complete history of Bay High's P. T. A.

To meet these obligations the P. T. A. will sell cold drinks and peanuts at the different school activities; they are planning to sponsor a Tom Thumb Wedding some time later in the year. Of course, everyone is looking forward to the Halloween Dance which will be given on October 31, and which promises to be a gala occasion.

### GREATLY EARNED VACATION GIVEN TO BROTHER FABIAN

Monday, October 6 saw the lovable Brother Fabian leave Bay St. Louis on a trip to far away New York where he intends to visit one of the recently inaugurated schools of the Brothers of the Sacred Heart. This trip was especially bequeathed to him by the Superior of the Society of the Brothers of the Sacred Heart in order that he might celebrate the sixtieth anniversary of his arrival here in America. Brother Fabian has traveled very much and can be proud of saying that his life has not lacked in the change of scenery.

It was a few years before coming to America that he joined the Brotherhood in France. Immediately after arriving in Canada he was assigned to teach there for a number of years. During his stay in Canada he was made Superior of several Canadian houses under the management of the Brothers of the Sacred Heart. He was then transferred to the United States where he was immediately sent South and assigned to teach. As the years went by he was given several houses to manage and among them are Natchez and Baton Rouge and Mobile. Brother Fabian is secretary and treasurer of the school and is very well liked by all the boys. His fine example has been a great influence upon the students of Saint Stanislaus.

As Brother Fabian will probably extend his trip into Canada, he will not be expected to return very soon. Brother Robert is replacing Brother Fabian during his absence.

### LIBRARY NOTES

November 1-8 is National Book Week. We expect all of our friends to visit the library and see our display.

Let's all become book-minded and read some of the new books that we have not read. This is the best time to turn our thoughts to the reading of the books on the Carnegie Shelf. Let's get acquainted with our brothers across the seas.

Mrs. Alice C. Buckley went into New Orleans, the latter part of last week to be with her mother, Mrs. C. B. Crisler, who is ill at her home in the Gentilly section of New Orleans, and from late reports was doing well and out of danger. Mrs. Crisler is a popular club woman at New Orleans and her work covers a wide and useful range.

The Jackson (Miss.) News editorially says: Down at Bay St. Louis a fever of enthusiasm is being worked up over the prospect of getting an ammunition dump located near that place, said to involve an outlay of \$120,000,000. Panama City, Fla., is also a contender for the plant. Now is the time for members of the Mississippi delegation to prove that they have a pull with the administration.

The country home in the Edgemoor community west of Bay St. Louis recently purchased by the Walker Dupuy family of New Orleans is being renovated and many improvements made. It is presenting the appearance of an ideal country home. An upper story has been added and electricity is being installed. Mr. and Mrs. Dupuy will make this their permanent home. Mrs. Dupuy was formerly Miss Alice Chapman of Bay St. Louis.

Miss Martha Chapman when en route to Gulf Park College Monday morning in her car had a collision with the city truck at the intersection of Citizen and Third streets. Miss Evelyn and Dell Luehrmann of Waveland who also attend Gulf Park, were passengers in the car with Miss Chapman. The car was badly damaged, it was said, but the occupants of the car were not injured.

## Personal and General

### PERSONAL PARTY AT BARBARA ANN TRASTEUR'S BIRTHDAY

An interesting event was the birthday party given by Mrs. Barbara Ann Trasteur, grand daughter of Mr. and Mrs. S. M. Mayer of 212 St. Charles street, Bay St. Louis, in the form of a luncheon at the Roosevelt Hotel, New Orleans, given by her grandparents.

In addition to Barbara Ann's mother, Mrs. F. J. Trasteur, the guests included Miss Gaynel Gex, Miss Virginia Seal and Miss Mary Lee Weston.

The group went over to New Orleans early and the luncheon party was preceded by sightseeing trips over the city, stopping at the old Cathedral and also visiting the Cabildo.

A special menu and table, appropriately decorated, had been previously arranged, and the luncheon easily proved an outstanding success.

The Roosevelt orchestra discoursed a special selection in honor of the occasion and the usual "Happy Birthday" song was voiced by members of the orchestra.

The party returned home in ample time to participate in the Central School homecoming parade at 4 o'clock, in which Barbara Ann was one of the majorettes.

Celebrating her eleventh birthday, the day proved one of unforgettable joy. Flowers and gifts came from relatives and many friends of the family, and were noted both for their beauty as well as for their intrinsic value.

The bride-elect has been a frequent visitor to Bay St. Louis, guest of her relative, Mrs. Walter J. Gex, and is no stranger, while the groom is a resident of Bay St. Louis, a director of the Merchants Bank & Trust Company, and is now in the service of his country.

Owing to the prominence of the contracting parties the announcement carries much interest in two States and will be a social event of the Autumn.

### BIRTHDAY PARTY FOR THELMA THOMAS WITH HALLOWE'EN THEME

Amidst a setting of black cats, devils and large yellow pumpkin lanterns and other Hallowe'en decorations with eerie skulls, ghosts and acrobatic skeletons, Thelma Thomas, young daughter of Mrs. Catherine Thomas, enjoyed her thirteenth birthday at a party and scavenger hunt given by her mother at their home on Second Street for a number of young friends and which was one of the novel and interesting parties of the Hallowe'en season.

From a gold cobbled well, tiny gold fishing rods pulled clues for the scavenger hunt which were wrapped around miniature pencils and the clues led to hidden lucky charms of painted cardboard hidden in the living room.

Prize winning sentences were contributed by Mary Frances Scaffide and Gaines Kergosien, and the winning group in the scavenger hunt was composed of Betty Lee Mitchell, Edward Porter, Mary Lou Bourgeois and Jack Wolfe.

On the pretty table, a large orange loaf cake in the shape of a witches cauldron from which streamers led, and at the table were tied orange and black cat suckers also carried the young honoree's initials. Punch, cake and candy were served and a wonderful time was enjoyed by everyone attending.

The guest list included besides the young honoree Betty Lee Mitchell, Landry, Mary Lou Bourgeois, Jack Wolfe, Mary Leigh Weston, A. J. Thomas, Mary Frances Scaffide, Gaines Kergosien, A. J. Scaffide.

### HALLOWE'EN DINNER AND BANQUET BY ROTARY CLUB

The Bay St. Louis Rotary Club entertained on Thursday night at one of their banquets and dances afterwards which are always such gala affairs.

The banquet and dance afterwards was given in the large dining hall of Hotel Reed and with the usual excellent dinner from the cuisine of Hotel Reed.

The color scheme in decorations were carried out in the Hallowe'en theme and music was provided by record player of Eldredge Helwick of Pass Christian, and the arrangements were in charge of Jesse W. Gray who was chairman of the committee for the dinner-dance.
